## **PESTICIDES & AGRI-CHEMICALS PROFILE**

INDIA JURIS caters to the various legal needs of the Insecticide, Pesticide and Agro-Chemical industry. We provide a complete and professional legal and regulatory solution to Registration of Plant Protection products including Bio-pesticides

Pesticide sector being highly regulated and scientific as well as hazardous has to plan for its growth in a meticulous way in order to enhance its growth by introducing new products of quality with low toxicity and environmental hazards and high efficacy, providing proper services and guidance to the customers and be receptive to the changing global regulations and product phase out and bans. It is here where India Juris have a role to play by providing services which helps in overall growth and development of our clients.

Our team and consultants have got the products registered with Central Insecticides Board & Registration Committee, Government of India as per the various guidelines of Insecticides Act, 1968. Our team has got good relations with the various laboratories, national institutes and state agricultural universities for generation of data as per the applicable guidelines.

A team of in-house and external professionals and consultants works meticulously for the successful results and delivery to the clients.
